## INTRODUCTION

CARINTHIA specialises in military/tactical, outdoor/survival and hunting gear. For decades, we have been developing and manufacturing high-performance cold protection clothing and equipment – designed by professionals for professionals. As an internationally recognised brand, we consistently focus on service excellence, innovation, and entrepreneurial thinking. Our products are created through intensive research and rigorous testing, and are precisely tailored to the requirements of our customers.

Built for extreme operating conditions, they represent maximum robustness, reliability, and performance. Quality, innovation, and dependability form the foundation of everything we do. This is how we set standards – and why we are the first choice for anyone who demands uncompromising equipment.

## INNOVATION AS AN ESSENTIAL PART OF OUR DNA

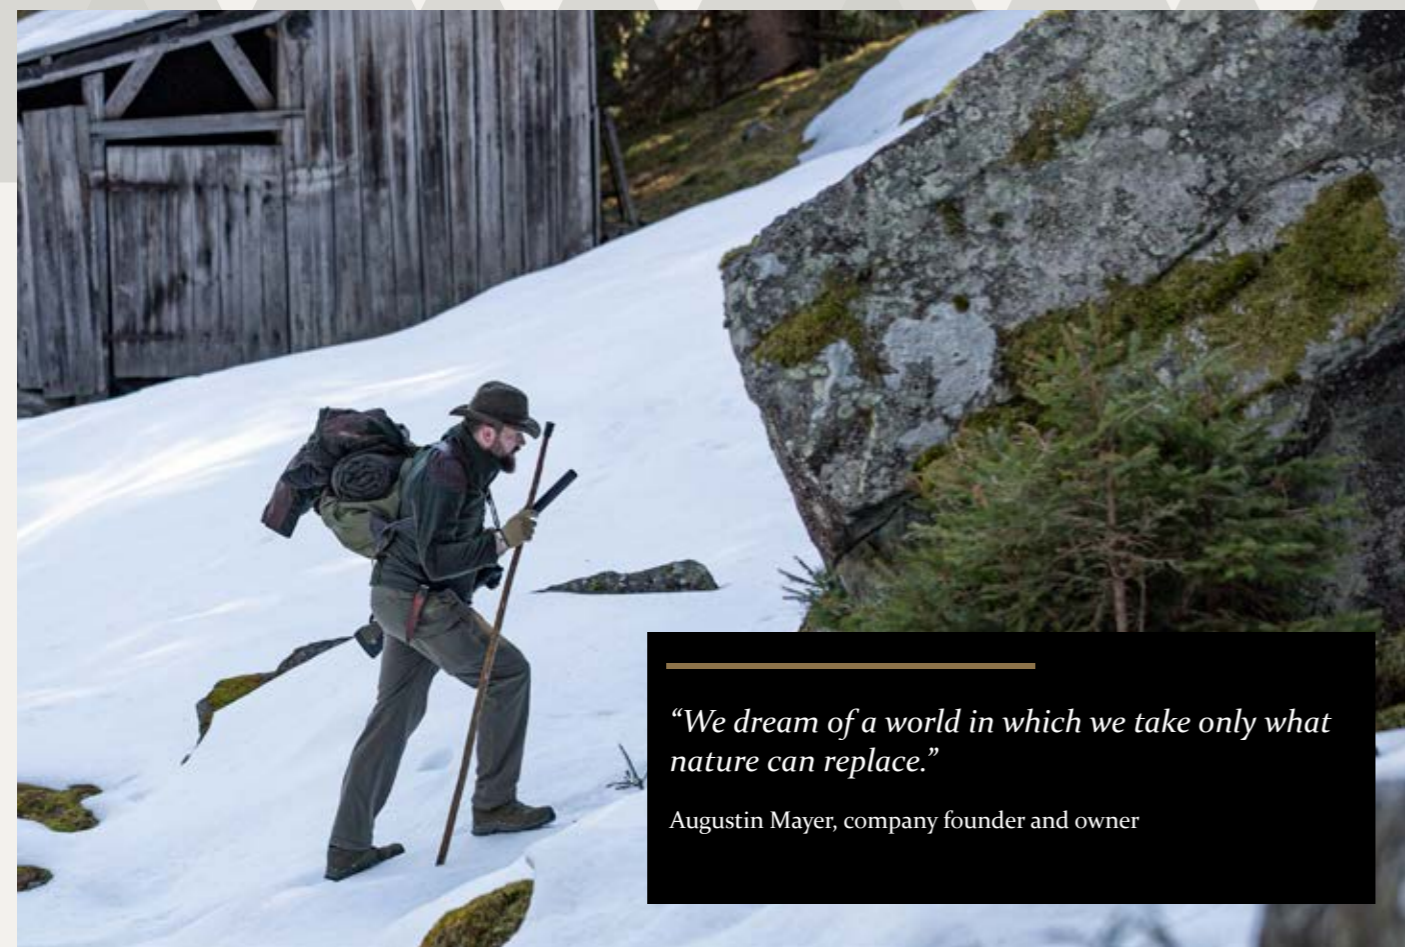

We are more than just a manufacturer: CARINTHIA is an **INNOVATION LAB** dedicated to continuous improvement. The majority of our products are developed in-house – a clear commitment to innovation and quality control.

These values underpin every decision we make and define our mission: to be the first choice for hunters who demand only the best and need to be able to rely completely on their equipment.

## SOCIAL RESPONSIBILITY

The manufacture of our products requires significant resources, such as water and energy; transport distances also have an impact on our environmental footprint. That is why we have made a conscious decision not to manufacture our products in the Far East. We view sustainability as an ongoing process that we pursue step by step – with a clear focus on responsibility and quality.

Our contribution lies in durable, functional and timeless products. Every product undergoes rigorous durability testing to maximise its lifespan and minimise the need for replacement. In addition, we offer a two-year warranty and will repair or replace products within this period if necessary.

*“We dream of a world in which we take only what nature can replace.”*

Augustin Mayer, company founder and owner

## WHAT DRIVES US: CONCEPT, MISSION AND VISION

### WHO WE ARE AND WHAT WE DO

CARINTHIA is a leader in the development and manufacture of high-performance equipment for use in extreme conditions. We set the standard in the military/tactical, outdoor/survival and hunting sectors – with uncompromising solutions for professionals who need to be able to rely on their equipment. Our products are based on in-depth research and are consistently designed to meet the most demanding requirements.

Robust construction meets sophisticated design – for maximum performance when it counts. Quality, innovation and reliability form the foundation of everything we do. As a driving force for innovation in the high-end textile sector, we develop cutting-edge technologies and durable premium products in our INNOVATION LAB that stand the test of time.

### VISION & MISSION

Nature shows us our limits, challenges us and inspires us. Treating it with respect means acting responsibly.

CARINTHIA plays its part in this with well-designed, consistently optimised products. Protection and comfort are at the heart of our equipment. With G-LOFT® Premium insulation fiber, we rely on one of the most effective insulation technologies on the market.

Our aim is to further expand our leadership in quality and expertise across all segments – sustainably and in line with our growth. By acting responsibly, we build long-term trust and play an active role in shaping markets.

The Group's core competence is G-LOFT® insulation fiber, with its wide range of applications. All business divisions base their strengths on G-LOFT® technology. Our aim is to demonstrate our expertise in all relevant markets and to position ourselves as a quality leader – with the additional goal of taking a leading role in terms of sales volume.

We develop all our products in-house and manufacture them in our own production facilities.

## COMPANY HISTORY

The story of CARINTHIA began in Carinthia over seven decades ago. Inspired by the vision of the company's founder, Augustin Mayer, the foundations were laid for a brand that would transform the world of outdoor equipment for the long term.

As early as 1975, he recognised the potential of synthetic fibres as an insulating material and their advantages over down – the starting point for the systematic innovation work of Goldeck Textil, CARINTHIA's parent company.

In the late 1970s, intensive research led to the development of the company's own fleece production facility. The result was G-LOFT® – an insulation technology that combines lightness, thermal performance and moisture resistance.

In 1994, the brand entered the international market under the name CARINTHIA. Premium products featuring G-LOFT® technology successfully established themselves in a wide variety of climates and applications.

Today, CARINTHIA is represented in 70 countries. The brand stands for the highest quality, technical innovation and reliability under extreme conditions. Users' trust in CARINTHIA products is based on the company's continuous development and specialist expertise.

The history of CARINTHIA demonstrates how vision, perseverance and a spirit of innovation can shape a successful company.

From its roots in Carinthia to its rise as an internationally recognised brand, CARINTHIA has always remained true to its core philosophy: to create reliable protective equipment for a wide range of applications through constant innovation and uncompromising quality.

### EUROPEAN SUPPLY CHAIN

Our clothing and equipment are produced within a predominantly European supply chain – from sourcing and production through to transport and delivery to the customer. In the initial phase, the focus is on high-quality raw material suppliers and the use of durable materials.

We carefully monitor each stage of the process along the value chain in order to have a greater influence on the quality of our products and to ensure better control mechanisms. We select our suppliers based on criteria such as quality, delivery reliability and sustainability considerations.

### SPECIFIC MEASURES – SOCIAL, ENVIRONMENTAL & ECONOMIC

- Production and raw material sourcing in Europe.
- G-LOFT® production in Europe (Slovakia).
- Resale or recycling of residual materials from G-LOFT® production.
- Heat recovery during fleece production.
- High-quality materials and workmanship.
- Durability and longevity are two key features of our CARINTHIA products. The longer our products are used, the better it is for the environment.

- The most significant contribution to sustainability is a durable product.
- Transport using modern, environmentally friendly lorries.
- Our production relies heavily on renewable energy and adheres to high social standards, as reflected in our Amfori BSCI Level A certification.

### CIRCULAR ECONOMY MODEL

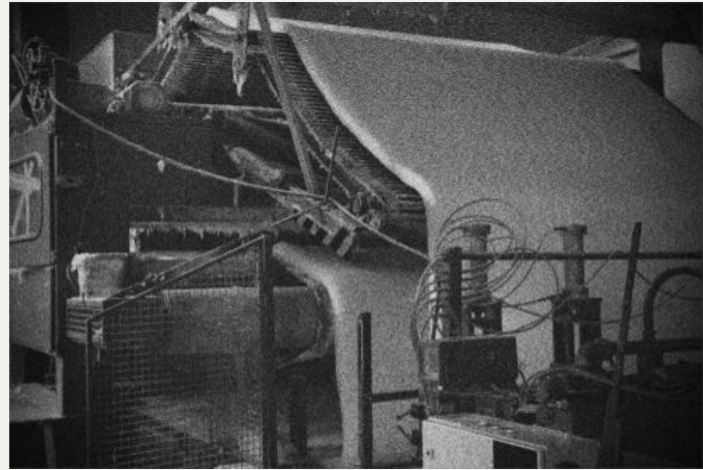

- **Fabric production:** We source our finished fabrics from Europe.
- **Raw materials:** We use high-quality raw materials to extend the lifespan of our products.
- **Clothing manufacture:** Production in Europe and Armenia.
- **Transport:** We use predominantly recycled materials for packaging and transport.
- **Sales:** Our company stands for sustainability and innovation.
- **Usage:** We provide care instructions and washing guidelines for every product – this helps to extend the lifespan.
- **Recycling:** Recycling of production waste and off-cuts.

## G-LOFT® STORY

In the 1970s, a revolution in insulation technology began, challenging the decades-long dominance of down as the benchmark for warmth, lightness and compressibility. Down had long been regarded as the gold standard, prized for its outstanding thermal performance and compact volume. In the mid-1970s, however, synthetic fibres emerged as a promising alternative, heralding a new era in materials science.

The challenge was to develop a synthetic fibre that could match the benefits of down. A key advantage of synthetic fibres was their resistance to moisture, which meant they retained their insulating properties even when wet.

1981 marked a turning point at the company's headquarters in Seeboden: the opening of the first production plant for synthetic insulation fibres, heralding the start of an intensive, research-driven development phase. Around a decade later, this vision was further expanded: following five years of planning and construction, a state-of-the-art production facility for synthetic fibres was established in Slovakia, which today ranks among the most advanced of its kind worldwide.

The main aim was to precisely replicate the unique cluster structure of down, which is responsible for its outstanding insulating properties. This structure was faithfully reproduced using innovative technologies, as confirmed by extensive testing.

The launch of G-LOFT® Premium insulation fibre was a real breakthrough. An insulation fibre that combines functionality, adaptability and durability at the very highest level – and is produced entirely in Europe.

Today, G-LOFT® stands for more than just insulation: it symbolises technological superiority and unrivalled quality, and forms the foundation of a company that thrives on continuous innovation and expertise.

# HUNTING EQUIPMENT

## LODEN HUNTING SEAT BLANKET LIGHT

ART: LO 92140

„More comfort. Less weight. For concentrated, successful stand hunting in any weather.“

LODEN ANSITZDECKE LEICHT

**Dimensions (cm):**  
150 × 180  
**Weight (g):**  
1,500  
**Insulation:**  
G-LOFT® 175 g/m<sup>2</sup>

The **Loden Hunting Seat Blanket Light** is the perfect companion for long, cold hunting vigils. Plush, whisper-quiet, and intelligently insulated, it offers reliable protection against cold, wind, and dampness while also functioning as a comfortable seat cushion and a steady support for your rifle and spotting scope.

With its high-quality G-LOFT® filling (175 g/m<sup>2</sup>), it provides outstanding warmth with minimal weight – even in wet conditions. Whether used as a wrap or as a ground layer, it keeps you dry and warm. The practical carrying strap allows for easy attachment to your rucksack or high seat, so it's always within reach.

### FEATURES

- Premium water-repellent loden outer fabric – durable, quiet, and fully weatherproof
- Plush, comfortable knit inner lining for excellent wearing comfort and added warmth
- Practical carrying strap included for convenient transport
- Multi-functional: Can be used as a thermal blanket, seat pad, rifle rest, and spotting scope support

### MATERIAL

**Insulation:**  
G-LOFT® 175g/m<sup>2</sup>, 100% Polyester

**Outer fabric:** 30% Wool, 30% Polyacryl, 32% Polyester, 3% Polyamide, 5% Other Fibers

**Inner lining:**  
100% Polyester

### DIMENSIONS & WEIGHT

## LODEN HUNTING SEAT BLANKET

ART: LO 92130

„Maximum warmth, intelligent comfort – the seat blanket that keeps you focused and relaxed even on the coldest days.“

LODEN ANSITZDECKE

**Dimensions (cm):**

150 × 180

**Weight (g):**

2,500

**Insulation:**

G-LOFT® 300 g/m<sup>2</sup>

The **Loden Hunting Seat Blanket** is the ultimate cold protection for demanding winter hunts. It can be comfortably wrapped around your entire body and individually secured with a variable button closure at the chest. The integrated adjustable neck collar provides additional support and prevents uncomfortable slipping. The generous front muff with two large hand openings not only offers a warm refuge for your hands but also practical storage space for small items such as scope covers, call mouthpieces, or spare cartridges.

In addition, the blanket can be easily used as a thick, comfortable seat pad. Thanks to its intelligent strap design, it can be quickly and compactly stowed away and conveniently attached to your backpack or high seat.

### FEATURES

- Premium water-repellent loden outer fabric – durable, quiet, and fully weatherproof
- Plush teddy fleece lining for outstanding wearing comfort
- Adjustable button closure for customized fit
- Adjustable neckband for secure hold
- Generous hand muff with dual access openings – keeps hands warm and offers extra storage
- Complete with practical carrying strap

### MATERIAL

**Insulation:**  
G-LOFT® 300g/m<sup>2</sup>, 100% Polyester

**Outer fabric:**  
75% Wool, 20% Polyamide, 5% Polyester

**Inner lining:**  
100% Polyester

### DIMENSIONS & WEIGHT

**Item No.:**  
LO 92130

**Dimensions (cm):**  
150 x 180

**Weight (g):**  
2,500

## LODEN HUNTING SEAT SACK STANDARD

ART: LO 92113

„Light to carry, easy to use, and extremely warm – the hunting seat sack that keeps you performing at your best and fully focused even on long winter days.“

LODEN ANSITZSACK STANDARD

**Dimensions (cm):**  
175 × 75  
**Weight (g):**  
2,000  
**Insulation:**  
G-LOFT® 300 g/m<sup>2</sup>

The **Loden Hunting Seat Sack Standard** is the ideal thermal protection for long, cold stand hunts. It reliably wraps your body in pleasant warmth, allowing you to fully concentrate on the hunt — without freezing. The robust, length-adjustable shoulder straps ensure a perfect fit and excellent wearing comfort, even over thicker jackets.

The generous front muff keeps your hands reliably warm and simultaneously offers practical storage space for small items such as cartridges, call mouthpieces, or scope covers. Thanks to the side 2-way zipper, you can quickly open and close the Anstz Sack — perfect for fast shooting opportunities or when you need to move.

### FEATURES

- Soft, high-quality loden outer material – quiet, water-repellent, and robust
- Comfortable inner lining made of fine knit fabric for excellent wearing comfort
- Robust, length-adjustable nylon shoulder straps with quick-release buckles
- Practical side 2-way zipper for maximum freedom of movement
- Large front muff with two hand openings – warms your hands and offers practical storage space

### MATERIAL

**Insulation:**  
G-LOFT® 300g/m<sup>2</sup>, 100% Polyester

**Outer fabric:** 30% Wool, 30% Polyacryl, 32% Polyester, 3% Polyamide, 5% Other Fibers

**Inner lining:**  
100% Polyamide

### DIMENSIONS & WEIGHT

**Item No.:**  
LO 92113

**Dimensions (cm):**  
175 x 75

**Weight (g):**  
2,000

hunters step in to restore it.  
With knowledge, experience, and  
respect for every animal.*

## LODEN FUR HUNTING SEAT SACK 2.0

ART: LO 92101 - LO 92103

„Maximum warmth, even more thought-out design – the new Loden Fur Hunting Seat Sack 2.0 is made for hunters who refuse to compromise in freezing temperatures.“

LODEN ANSITZSACK FELL 2.0

NEW

**Dimensions (cm):**  
155 × 75  
**Weight (g):**  
2,500 (M)  
**Insulation:**  
G-LOFT® 300 g/m<sup>2</sup>

The **Loden Fur Hunting Seat Sack 2.0** is the ultimate thermal protection for extreme winter hunting vigils. With powerful G-LOFT® HI 300 g/m<sup>2</sup> insulation and a soft teddy plush inner lining, it delivers maximum comfort and warmth even in the lowest temperatures. A one-handed adjustable drawcord at chest level minimizes heat loss, while the full-length central 2-way zipper allows for quick entry and exit. The foldable foot section with leather tab and button closure can be flipped forward or backward without having to remove the entire sack — keeping you warm and mobile during spontaneous position changes. The generously enlarged front muff now offers significantly more space and improved hand comfort.

New features include a **fold-out ammunition holder** and an **extra-large equipment pocket** on the right side. The **optimized carrying strap** ensures greater comfort during transport and when attaching the sack to the high seat. Robust loden shoulder straps with length adjustment guarantee a secure and comfortable fit, even over thick winter clothing. The zip-in, washable inner foot sack made of waterproof material reliably protects the Hunting Seat Sack from dirt and soiling.

### FEATURES

- High-quality, water-repellent loden outer material
- Soft teddy plush inner lining for exceptional comfort
- Robust loden shoulder straps with length adjustment
- Foldable foot section with leather tab and button closure
- Full-length 2-way front zipper (centered)
- One-handed adjustable drawcord at chest level
- Zip-in and washable inner foot sack

### NEW FEATURES

- Optimized carrying strap
- 2 enlarged hand access pockets
- Fold-out ammunition holder
- Extra-large right-side equipment pocket

### MATERIAL

**Insulation:**  
G-LOFT® 300g/m<sup>2</sup>, 100% Polyester

**Outer fabric:**  
75% Wool, 20% Polyamide, 5% Polyester

**Inner lining:**  
100% Polyamide

### DIMENSIONS & WEIGHT

**Item No.:**  
LO 92101 - LO 92103

3,100 (M)  
3,900 (L)  
4,200 (XL)  
**Insulation:**  
G-LOFT® 300 g/m<sup>2</sup>

### The Hunting Seat Jacket & Footmuff with Synthetic Fur

is the ultimate 2-in-1 system for extreme winter hunting. It combines the benefits of a warm hunting jacket with the full insulation of a hunting bag – ideal for long hours in freezing temperatures.

Its intelligent design allows the foot section to be completely removed or folded upward and secured at the waist using two leather straps. In addition, a durable, zip-in and washable inner foot sack protects the shooting bag from dirt and moisture in the foot area.

This keeps the jacket clean and fully operational even in wet or muddy conditions.

### FEATURES

- High-quality, water-repellent premium loden as outer material
- Soft teddy plush inner lining for exceptional warmth and wearing comfort
- Stand-up collar with button-down option
- 2-way zippers for maximum freedom of movement
- Integrated wind protection flap with pinch protection
- 2 spacious muff side pockets with inner zip closure
- Pulse warmers made of soft thermo-fleece
- 2 additional hand access openings underneath the muff pockets
- Foldable foot section with leather tabs and button closure
- Zip-in, washable inner foot sack made of robust, waterproof material
- Integrated carrying system with strap webbing

### A loden hood is available as an optional extra.

**Item No.:** LO 92166  
**Insulation:** G-LOFT® 300g/m<sup>2</sup>, 100% Polyester  
**Outer fabric:** 75% Wool, 20% Polyamide, 5% Polyester  
**Inner lining:** 100% Polyester

### MATERIAL

**Insulation:**  
G-LOFT® 300g/m<sup>2</sup>, 100% Polyester

Responsibility for wildlife and habitat.  
Day in, day out.

## G-LOFT® SEAT CUSHION

ART: LO 92152

*“The G-LOFT® Seat Cushion ensures a warm, dry and soft seat on every hunting trip. Lightweight, compact and extremely comfortable – the perfect companion for long hours on the high seat and during driven hunts.”*

G-LOFT® ANSITZKISSEN

**Dimensions (cm):**

40 × 50

**Weight (g):**

150

**Insulation:**

G-LOFT® 350 g/m<sup>2</sup>

The **G-LOFT® Seat Cushion** is the ideal companion for every hide hunt and driven hunt. Ready for use within seconds, it provides a clean, dry, and comfortably warm seating surface – even on wet ground, snow, or cold high seats.

Thanks to the thicker G-LOFT® insulation with 350 g/m<sup>2</sup>, it offers noticeably more comfort and warmth compared to conventional seat cushions. The water-repellent outer material reliably protects against moisture, while the soft loden and teddy fleece surface ensures exceptional seating comfort.

Weighing only 150 grams and featuring an extremely compact pack size, it fits into almost any hunting bag and is always ready when needed.

### FEATURES

- Extremely high insulation performance with G-LOFT® 350 g/m<sup>2</sup>
- Water-repellent outer material
- Soft and comfortable loden and teddy fleece lining
- Quick to unroll and compact to pack away
- Extremely lightweight and compact

### MATERIAL

**Insulation:**

G-LOFT® 350g/m<sup>2</sup>, 100% Polyester

**Outer fabric:**

100% Polyester

**Inner lining:**

100% Polyester

## G-LOFT® TLLG 2.0 VEST

ART: LO 92940 - LO 92945  
ART. LADY: LO 92950 - LO 92955

"Lightweight, warm, and extremely flexible—the TLLG 2.0 vest is the perfect companion for active hunting in cool weather."

The **TLLG 2.0 Vest** is the lightweight, highly functional complement to the popular TLLG 2.0 Jacket. It impresses with its precise, close-fitting cut and innovative G-LOFT® insulation with just 30 g/m<sup>2</sup> – delivering noticeable warmth without unnecessary bulk or weight. Elastic thermo-stretch inserts in the sides, back, and shoulder areas ensure excellent freedom of movement and a comfortable fit, even during dynamic movements while stalking or driven hunting.

The women's model features a specially adapted feminine cut and additional stretch inserts for an optimal fit. Quiet, breathable, and highly versatile – the perfect midlayer vest for transitional seasons and cold days.

### FEATURES

- Close-fitting collar for reliable wind protection
- 2 large side pockets
- 2 spacious inner chest pockets
- Wind protection flap with chin guard
- Zipper cover strip
- Elastic thermo-stretch fleece inserts in the sides and back
- Elastic hem
- Specially adapted women's cut with additional stretch inserts

### MATERIAL

**Insulation:**  
G-LOFT® 30g/m<sup>2</sup>, 100% Polyester

**Outer fabric:**  
75% Virgin Wool, 25% Polyamide

**Inner lining:**  
100% Polyester

### WEIGHT, SIZES & COLORS

**Item No.:** LO 92940 - LO 92945

not in moments. Their actions  
preserve biodiversity  
and natural balance.*

## G-LOFT® LODEN REVERSIBLE VEST

ART: LO 93015 - LO 93019

„One Vest. Two Worlds. Maximum comfort and flexibility – from quiet stands to fast driven hunts.“

The **G-LOFT® Loden Reversible Vest** is the perfect all-rounder for hunting – lightweight, extremely breathable, and equipped with intelligent thermal insulation. Thanks to the high-quality G-LOFT® filling, it provides noticeable warmth with minimal weight and bulk. One side features premium South Tyrolean loden, while the reversible side is made of bright orange Blaze Camo – ideal for quickly switching between stand hunting and driven hunts.

Thanks to elastic stretch materials, the vest adapts perfectly to the body and guarantees unrestricted freedom of movement. Whether used as a light insulation layer during cold morning sits or as a high-visibility safety vest during driven hunts – this reversible vest is a true multitasker.

### FEATURES

- High-quality South Tyrolean loden on the outer side
- Reversible side in Orange Blaze Camo – perfect for driven and beating hunts
- 2 outer zippered pockets (radio-compatible with antenna and cable ports)
- Close-fitting, comfortable collar
- Elastic stretch inserts for optimal fit and unrestricted freedom of movement
- Very lightweight and highly breathable

### MATERIAL

**Insulation:**  
G-LOFT® 60g/m², 100% Polyester

**Outer fabric:**  
75% Virgin Wool, 25% Polyamide

**Inner lining:**  
60% Cotton, 40% Polyester

### WEIGHT, SIZES & COLORS

# G-LOFT® ULTRA LODEN VEST

ART: LO 92610 - LO 92650

„Light enough for all-day wear, warm enough for the cold season – the G-LOFT® Ultra Loden Vest is pure hunting intelligence in traditional attire.“

Light, warm, and exceptionally well cut – the **G-LOFT® Ultra Loden Vest** is the ideal companion for demanding hunters who refuse to compromise on either warmth or freedom of movement. The vest combines traditional South Tyrolean loden on the outside with modern G-LOFT® insulation on the inside. The result is an extremely lightweight, quiet, and yet very warm vest that works perfectly as a midlayer or as a standalone insulation piece.

Particularly impressive are the elastic thermo-fleece stretch inserts in the shoulder and side areas. Whether used as a versatile hunting vest for the entire autumn and winter season or as a practical addition to your layering system – this vest impresses with its perfect balance of tradition, comfort, and modern functionality.

## FEATURES

- Close-fitting collar for effective wind protection
- 2-way front zipper for maximum flexibility
- Wind protection flap with chin guard
- Zipper cover strip
- Elastic stretch thermo-fleece inserts in the shoulder and side areas
- 2 large side pockets
- 1 Napoleon chest pocket
- Elastic hem for optimal fit

## MATERIAL

**Insulation:**  
G-LOFT® 60g/m<sup>2</sup>, 100% Polyester

**Outer fabric:**  
75% Virgin Wool, 25% Polyamide

**Inner lining:**

*Experience, respect, and responsibility guide our actions in the field.  
For nature, wildlife, and future generations.*

## G-LOFT® HUNTING SHIRT 2.0

ART. LO 92910 - LO 92914 (olive)  
ART. LO 92915 - LO 92919 (black)

„Dry, warm, and extremely mobile – the G-LOFT® Hunting Shirt 2.0 is the smart midlayer that makes your hunting jacket noticeably more effective.“

The **G-LOFT® Hunting Shirt 2.0** is a true multifunction talent and one of the smartest midlayer solutions in the hunting sector. It was specifically developed to perform both as a standalone jacket in milder temperatures and as a high-performance midlayer underneath a hunting jacket. By combining Techno Wool, highly breathable functional fabrics, and lightweight G-LOFT® insulation, this shirt creates excellent moisture management.

Special details make the Hunting Shirt 2.0 particularly suitable for hunting: The stand-up collar reliably protects the neck from wind and cold, while the extended sleeves with thumb loops prevent the sleeves from riding up and make layering easier. The shirt combines perfectly with all CARINTHIA hunting jackets and optimally completes your hunting layering system.

### FEATURES

- 2 large side pockets
- 2 large inner zippered pockets
- Concealed zippers for maximum noise reduction
- Stand-up collar with chin guard
- Extended sleeves with thumb loops
- Elastic hem
- Optimal compatibility with CARINTHIA hunting jackets

### MATERIAL

**Insulation:**  
G-LOFT® 20g/m², 100% Polyester

**Outer fabric:**  
Techno Wool (51% Polyester, 35% Wool, 14% Polyamide)

**Inner lining:**  
100% Polyester

# RANGE EXTENDER RE<sub>1</sub>

## The Technical Revolution Behind RE<sub>1</sub>

In the high-performance outdoor sector, one key challenge remains: how can extreme durability, maximum flexibility, and exceptional comfort be combined without compromising functionality or longevity?

This exact question became the focus of the **CARINTHIA INNOVATION LAB**, which spent several years developing the RE<sub>1</sub> – Range Extender Technology.

### This revolutionary high-tech outer fabric combines:

- Extreme durability for the harshest conditions.
- Maximum flexibility thanks to RE<sub>1</sub> 4-way stretch technology.
- Exceptional wearing comfort through high air permeability.
- Low noise signature.
- Outstanding durability, even after intensive washing cycles up to 95 °C.

The unique outer fabric is characterized by exceptional stretch properties and innovative Formfit technology. The material retains its shape and elasticity even during intense activity and after high-temperature washing cycles of up to 95 °C. This ensures unprecedented freedom of movement and a high level of wearing comfort in an environment that demands absolute durability.

## The Innovation Path

### A continuous development process

The development of this revolutionary outer fabric was a continuous process, in which our dedicated team invested a great deal of time in intensive research and development. This journey was characterized by constant innovation, countless tests, and an unwavering pursuit of perfection.

### The Heartpiece: Specially Developed Yarn

The foundation of our innovation lies in the careful selection of fibers, which are processed into a high-performance yarn. We have developed every subsequent process step and machine setting along the entire production chain with the highest precision. This holistic approach is crucial to the exceptional performance of the RE<sub>1</sub> products.

### RE<sub>1</sub> – A Revolution in Outdoor Apparel CARINTHIA Series with RE<sub>1</sub> Technology

RE<sub>1</sub> technology is the core element of the new apparel series and represents the latest innovation from the CARINTHIA INNOVATION LAB. This advanced material technology was specifically developed for demanding users operating in extreme conditions and under intense physical stress. Its purpose is to achieve a previously unmatched balance of functionality, comfort, and durability.

**Built to perform. Designed to protect. Engineered for comfort.**

## GOLDECK PANTS

ART: MG6125-MG6129 (olive)  
ART: MG6150-MG6155 (forest green)

*“Robust, flexible, and intelligently engineered – the Goldeck Pants set a new benchmark for demanding outdoor trousers.”*

In the high-performance outdoor segment, the goal is to intelligently combine uncompromising durability, maximum freedom of movement, and genuine wearing comfort - without sacrificing functionality or longevity. This is exactly what the Goldeck Pants from CARINTHIA stand for. Developed over several years, these trousers are designed for those who refuse to compromise in the harshest conditions. Whether in rocky alpine terrain, dense forests, or unpredictable weather, the **Goldeck Pants** deliver unrestricted mobility while providing reliable protection and outstanding comfort. The RE<sub>1</sub> Advanced 4-way stretch material ensures maximum flexibility, while the integrated G-LOFT® waistband adds additional thermal insulation and a comfortable fit in the hip area. Thoughtfully placed ventilation openings, an intelligent pocket system, and durable Cordura reinforcements make the Goldeck Pants a versatile and extremely long-lasting companion for demanding outdoor operations.

## FEATURES

- RE<sub>1</sub> Advanced 4-way stretch for maximum freedom of movement
- G-LOFT® insulation in the waistband for comfort, flexibility, and protection
- Strategically placed ventilation openings for optimal airflow
- Intelligent pocket system with 5 pockets: 2 cargo pockets with side access and integrated organizer compartments, 2 standard hand pockets, 1 zippered hip pocket, 1 tactical rear pocket
- Cordura-reinforced pockets for increased durability
- Integrated Multicam webbing for adjustable width
- Individually adjustable Velcro waistband
- Adjustable leg openings
- Low-noise construction and washable up to 95°C

## MATERIAL

**Insulation:**  
G-LOFT®, 100% Polyester

**Outer fabric:**  
46% Cotton, 46% Polyamide, 8% EOL

# GOLDECK HUNT PANTS

ART: MG6140-MG6144 (olive)  
ART: MG6145-MG6149 (forest green)

“Extremely durable, exceptionally flexible – the Goldeck Hunt Pants are built for hunters who demand the highest standards from their gear.”

The **Goldeck Hunt Pants** are high-performance outdoor trousers for demanding hunters and tactical professionals. They combine extreme durability with exceptional freedom of movement and intelligent storage solutions - perfect for challenging stalking hunts, driven hunts, and long days in the field. The advanced RE<sub>1</sub> Advanced 4-way stretch material ensures maximum flexibility and unrestricted mobility, while the integrated G-LOFT<sup>®</sup> waistband provides additional comfort, thermal protection, and flexibility in the hip area. Cordura-reinforced pockets and highly durable materials make these trousers extremely long-lasting - even in dense undergrowth, rocky terrain, or harsh weather conditions. Thoughtful design details such as cargo pockets with side access and integrated organizer compartments, a tactical rear pocket, and a dedicated knife pocket ensure that all essential gear can be stored securely and accessed quickly. Adjustable leg openings and an elastic waistband with Velcro adjustment allow for a customized fit and maximum wearing comfort.

## FEATURES

- RE<sub>1</sub> Advanced 4-way stretch for maximum freedom of movement
- G-LOFT<sup>®</sup> waistband for comfort, flexibility, and light thermal protection
- Cordura-reinforced pockets for maximum durability
- 2 cargo pockets with side access and integrated organizer compartments
- 2 standard hand pockets + 1 tactical rear pocket + 1 dedicated knife pocket
- Integrated Multicam webbing for adjustable fit
- Adjustable leg openings
- Enhanced hip comfort through elastic inserts
- Low-noise construction and washable up to 95°C

# LOFTSHELL®

## DIE LOFTSHELL® STORY

In the outdoor and operational sector, there is no room for compromise. Our customers - whether in the military, outdoor survival, or professional field operations - demand clothing that is versatile, functional, and reliable. Softshell products were once considered the gold standard, but in practice they quickly revealed their limitations. At CARINTHIA, we recognized the need for a superior solution that meets the high demands of our users.

In developing **LOFTSHELL®**, we followed a clear vision: to create a product that combines the benefits of a classic shell with the warmth and flexibility of an insulation layer. The development process was driven by extensive research, field testing, and close collaboration with our target users. By applying state-of-the-art materials and our expertise in insulation and weather protection technologies, we created a product that is both lightweight and highly durable.

**LOFTSHELL®** combines an elastic outer shell with an innovative Comfort Layer, delivering a unique wearing experience. The ultra-light Comfort Layer efficiently transports moisture away from the skin to the outside, ensuring a comfortable body climate across an extended temperature range, with materials that feel soft and pleasant directly on the skin.

### KEY FEATURES LOFTSHELL®:

- SUPERIOR MOISTURE MANAGEMENT:**  
 LOFTSHELL® ensures optimal moisture transport to the outside, keeping the wearer dry, comfortable, and performance-ready during a wide range of outdoor activities.
- PRECISE TEMPERATURE REGULATION:**  
 LOFTSHELL® provides an extended comfort zone. In warm conditions or during intense activity, it efficiently releases excess heat, while in colder environments it helps prevent unnecessary heat loss.
- LOW-NOISE FABRICS:**  
 The LOFTSHELL® technology uses pleasantly soft and low-noise outer fabrics. Nothing distracts you from your adventures..
- NEWLY DEFINED WEARING COMFORT:**  
 The innovative material composition provides a soft and comfortable feel against the skin. Wearing comfort is significantly enhanced.

**LOFTSHELL®** stands for groundbreaking moisture management and unrivalled comfort – **COMFORT REDEFINED.** With LOFTSHELL®, we set a new standard in performance.

Our product developments from the CARINTHIA INNOVATION LAB not only reflect CARINTHIA's commitment to innovation, but also our dedication to continuously finding the best possible solutions for our customers.

## LOFTSHELL® HYDRO

ART: MG0870-MG0874

*“Dry, quiet, and highly breathable – the Loftshell® Hydro sets new standards in technical weather protection for hunting.”*

## LOFTSHELL®

The **LOFTSHELL® Hydro** is an innovative, low-noise outdoor jacket that combines maximum waterproof and windproof protection with excellent moisture management. At its core is the unique G-LOFT® Climate Lining. It actively absorbs moisture and efficiently transports it through the integrated membrane to the outside - ensuring a dry and comfortable feel against the skin, even during high physical activity.

The combination of a 2-layer laminate construction with fully taped seams and waterproof zippers ensures absolute reliability in heavy rain and strong wind.

Despite its high level of weather protection, the LOFTSHELL® Hydro remains surprisingly lightweight, extremely quiet, and highly comfortable to wear. A fixed hood, reinforced inner pockets, and well-designed exterior pockets complete its functional design.

### FEATURES

- 2-layer laminate with integrated membrane
- G-LOFT® Climate Lining for active moisture management
- Fully taped seams for maximum waterproof protection
- Waterproof zippers
- Fixed hood
- 3 outer pockets and 2 mesh inner pockets
- Extremely low-noise construction

### MATERIAL

**Outer fabric:**  
100% Polyamide

**Inner lining:**  
100% Polyamide

# G-LOFT® ISLG JACKET

ART: LO 93000 - LO 93004 (olive)  
ART: LO 93005 - LO 93009 (grey)

“The G-LOFT® ISLG Jacket combines robust loden, intelligent insulation, and weather protection in a single garment. The perfect all-rounder for high-seat hunting, stalking, and demanding hunts in autumn and winter.”

The **G-LOFT® ISLG Jacket** is the hunting-proven bestseller from the successful ISG series – perfectly tailored to the demands of the field. It combines high-quality South Tyrolean loden with intelligent G-LOFT® insulation and wind- and water-repellent GORE® Softshell material on the arms and sides.

The result is a versatile, highly breathable jacket that delivers excellent weather protection and thermal management. G-LOFT® insulation on the front and back reliably regulates temperature and moisture, ensuring you stay dry and comfortably warm even during long periods in the hide or in changing weather conditions. Thoughtful features such as the detachable hood that can be stowed in the collar, an integrated ventilation system, and multiple functional pockets make the ISLG Jacket a true all-round hunting jacket for autumn and winter use.

## FEATURES

- Detachable hood, stowable in the collar
- Hood with elastic drawcords, adjustable in two directions
- Soft thermal fleece inner collar for high wearing comfort
- Water-repellent external zippers
- Front zipper with chin guard and wind protection flap
- Ventilation system with zippered access openings in the side seams
- 2 large insulated outer pockets
- 2 upper arm pockets with zippers
- Pre-shaped sleeves for optimal freedom of movement
- Elastic drawcord hem for an individual fit

## MATERIAL

**Insulation:**  
G-LOFT® 40g/m², 100% Polyester

**Outer fabric:** 3L Softshell GORE®, 100% Polyamide (Arms & Waist), 75% Virgin Wool, 25% Polyamide (Body)

**Inner lining:**  
100% Polyamide

Hunting management is practiced conservation. Hunters ensure calm, food availability, and intact habitats.

## G-LOFT® ISLG TROUSERS

ART: LO 93010 - LO 93014

“Robust, comfortable, and intelligently designed – the ISLG Trousers are the perfect pants for hunters who value functionality and durability.”

The matching trousers to the ISLG Jacket – robust, versatile, and designed for maximum hunting comfort. The **G-LOFT® ISLG Trousers** combine a durable yet slightly flexible outer fabric with carefully engineered hunting-specific features. The result is a pair of trousers that deliver excellent wearing comfort, even during long stalking tours or in challenging weather conditions. The height-adjustable waistband with practical, detachable suspenders ensures a secure and comfortable fit, while the width-adjustable leg openings with zippers allow for easy on and off - even over heavy boots. For additional cold protection, the separately available zip-in shorts can be easily integrated into the trousers. Reinforced knee and inner leg areas provide protection against thorns, moisture, and wear. The ISLG Trousers are the ideal complement to the ISLG Jacket, completing your professional hunting system.

### FEATURES

- Water-repellent and durable outer material
- Elastic waistband with button closure and belt loops
- Height-adjustable waistband with practical detachable suspenders
- 2 large outer pockets
- 2 mesh ventilation openings in the thigh area
- Pre-shaped and reinforced knee area
- Reinforced inner leg areas
- Width-adjustable leg openings with zipper closure
- Zip-in insulation shorts included

### MATERIAL

# G-LOFT® TLLG 2.0 JACKET

ART: LO 92960 - LO 92969  
ART. LADY: LO 92920 - LO 92937

*“Lightweight, quiet, and highly flexible – the TLLG 2.0 Jacket is the first choice for active driven and stalking hunters who refuse to compromise on comfort and functionality.”*

The **TLLG 2.0 Jacket** combines traditional South Tyrolean loden with modern technical functionality. It is a lightweight, dynamic, and low-noise hunting jacket specifically developed for active hunters. High-quality loden is combined with elastic thermal stretch inserts in the side, arm, shoulder, and back areas. The result is an extremely flexible, tailored jacket with an excellent fit that fully demonstrates its strengths during stalking and, in particular, driven hunts.

Anatomically pre-shaped sleeves allow for a fast and natural shouldering motion, while reinforced shoulders and upper arms ensure branches and brush are reliably deflected. The jacket can be worn as a mid-layer or as a standalone piece and is ideally combinable with other CARINTHIA hunting jackets.

Whether in the field or in everyday use, the TLLG 2.0 impresses with its aesthetic design, quiet performance, and high versatility. The women's model additionally features an optimized feminine cut and extra thermal stretch inserts in the torso and back area.

## FEATURES

- 2 large side pockets
- 2 large inner pockets with zipper
- Concealed zippers for maximum noise reduction
- Zippered pocket on the left forearm
- Anatomically pre-shaped sleeves for quick shouldering
- Reinforced shoulder and upper arm area
- Soft inner collar made of thermal fleece
- Elastic thermal stretch inserts in the side, arm, and back areas
- Mesh inserts under the arms for optimal body climate

## MATERIAL

**Insulation:**  
G-LOFT® 30g/m², 100% Polyester

## G-LOFT® ILG JACKET

ART: LO 92820 - LO 92825

*"The G-LOFT® ILG Jacket is the versatile all-round hunting jacket for driven hunts, stalking, and everyday use in the field."*

The G-LOFT® ILG Jacket is a versatile, lightweight, and highly functional all-season jacket - developed for hunters who refuse to compromise. Worn as a standalone jacket during transitional seasons or as a warm mid-layer under a shell jacket, the ILG Jacket impresses with its balanced insulation and excellent freedom of movement.

Anatomically pre-shaped sleeves with a specially reinforced elbow area allow for a fast and natural shouldering motion, making the jacket particularly popular for driven hunts. Reinforced panels extending from the shoulders to the upper arms ensure that branches and brush are reliably deflected - ideal for stalking. At the same time, the lightweight G-LOFT® insulation provides comfortable warmth without making the jacket bulky or heavy. Whether on driven hunts, stalking, or as an everyday companion, the ILG Jacket stands out through its quiet, refined design and well-engineered functionality.

### FEATURES

- Soft inner collar made of thermal fleece for high wearing comfort
- Two large insulated outer pockets with microfleece lining
- Two chest pockets
- Anatomically pre-shaped sleeves with reinforced elbow area
- Reinforced shoulder and upper arm area for optimal protection against branches
- Zippered pocket on the left forearm
- Internal, one-hand adjustable elastic drawcord at the hem

### MATERIAL

**Insulation:**  
G-LOFT® 40g/m², 100% Polyester

## G-LOFT® MILG JACKET

ART: LO 92830 - LO 92835

*“Silent, practical, and intelligently designed – the MILG Jacket is a reliable all-rounder for high-seat hunting, stalking, game management, and working with hunting dogs.”*

The **MILG Jacket** is the ideal mid-layer insulation jacket for demanding hunters seeking a perfect balance of warmth, noise reduction, and practical functionality. Made from high-quality South Tyrolean loden, the MILG Jacket is completely silent, making it particularly suitable for stalking hunts and for areas where game is extremely sensitive to noise. It is perfectly suited for long periods in the high seat as well as for daily game management and working with hunting dogs.

A key highlight is the large integrated storage compartment in the lower back area. It provides secure and protected space for retrieving tools, gloves, or other essential equipment. Thanks to its PU coating, this compartment is waterproof and washable.

The generously cut, insulated hood keeps the entire head area warm without restricting the field of vision - ideal for cold and windy conditions during high-seat hunting. Thoughtful features such as ventilation openings and the 2-way front zipper ensure excellent temperature regulation and freedom of movement.

### FEATURES

- Insulated hood adjustable in two directions
- Ventilation openings for optimal temperature regulation
- 2-way front zipper with wind flap and chin guard
- 2 large outer pockets lined with thermal fleece
- 2 chest pockets for small essentials
- 2 inner pockets with zippers
- 3 sleeve pockets
- Large waterproof rear storage compartment in the lower back area
- Adjustable elastic drawcord at the hem
- Pre-shaped sleeves with adjustable width regulation

### MATERIAL

## G-LOFT® LODEN PARKA 2.0

ART: LO 92805 - LO 92809

*“The ultimate winter parka for demanding high-seat hunters – warm, quiet, intelligently designed, and crafted with attention to detail.”*

The **G-LOFT® Loden Parka 2.0** is the evolution of our winter flagship model. With numerous detail improvements, it consistently continues the CARINTHIA philosophy of constant refinement. This functional hunting parka combines the classic, refined look of high-quality loden with modern G-LOFT® insulation, delivering excellent protection in freezing temperatures and harsh weather conditions. The long cut reliably protects the thigh area, while the back pleat, elastic waist adjustment, and generous fit ensure outstanding comfort—even during highly active hunting situations.

Special emphasis has been placed on absolute noise reduction, making the parka ideal for high-seat hunting. Practical features such as integrated thermal fleece wrist warmers, fold-out ammunition holders on the sleeves, and a large PU-coated pass-through rear pocket make the Loden Parka 2.0 an exceptionally well-thought-out and field-oriented companion.

Whether during long hours in a snowy high seat, in wet and cold conditions, or on extended stalking hunts - the G-LOFT® Loden Parka 2.0 delivers reliable weather protection, warmth, and superior comfort.

### FEATURES

- Detachable hood with elastic drawcords (3-way adjustable)
- G-LOFT® reinforced hood with concealed snap-button closure
- Width-adjustable collar
- 2-way front zipper with storm flap and magnetic closure
- 2 large hand pockets in the upper side chest area
- 2 large patch outer pockets with magnetic buttons
- 2 chest pockets with integrated binocular holder
- Fold-out ammunition holders on the outer pockets
- 1 Napoleon pocket under the storm flap
- 2 large inner pockets with zippers
- PU-coated pass-through rear pocket
- Back pleat for optimal freedom of movement
- Pre-shaped sleeves with adjustable width regulation
- Integrated thermal fleece wrist warmers
- Elastic waist adjustment
- Internal, one-hand adjustable elastic drawcord (hem)

### MATERIAL

**Insulation:**  
G-LOFT® Body 145g/m2, Arms 110g/m2, 100% Polyester

## G-LOFT® LODEN PARKA 2.0 LADY

ART: LO 92843 - LO 92849

*“Elegant, functional, and specifically designed for female hunters – the G-LOFT® Loden Parka Lady 2.0 combines a feminine fit with uncompromising winter performance.”*

The **G-LOFT® Loden Parka Lady 2.0** is the consistent evolution of our successful women's winter parka - specifically adapted to the female anatomy. With a feminine, tailored cut, pre-shaped sleeves, a back pleat, and an elastic waist adjustment, the Parka Lady 2.0 offers an exceptional fit and outstanding comfort, even over extended periods of wear.

The high-quality loden material combined with efficient G-LOFT® insulation provides reliable protection against cold, wind, and moisture - even during demanding winter high-seat hunts. Practical details make this parka the ideal choice for female hunters. A large, durable zippered rear pocket with PU coating serves as a practical game bag. The magnetic closure system on the pocket flaps prevents accidental opening, ensuring that essential gear stays securely in place.

The detachable hood can be adjusted in three directions using elastic drawcords, offering optimal weather protection when needed. Thanks to the quiet properties of the loden fabric and its well-thought-out functionality, the G-LOFT® Loden Parka Lady 2.0 is the perfect and indispensable companion for long high-seat hunts and demanding days in the field.

### FEATURES

- Detachable hood with elastic drawcords (3-way adjustable)
- G-LOFT® reinforced hood panels with concealed snap-button closure
- 2-way front zipper with storm flap and magnetic closure
- 2 large hand pockets with magnetic buttons
- 2 large patch outer pockets with magnetic buttons
- Fold-out ammunition loops on left and right outer pockets
- 1 forearm pocket (left)
- 1 upper arm pocket (right)
- Spacious internal zip pocket inside the right outer pocket
- 1 Napoleon pocket on the inside
- Elastic waist adjustment
- Removable wind guard
- Integrated internal carrying strap
- Pre-shaped sleeves
- Large PU-coated rear zip pocket

### MATERIAL

## G-LOFT® LODEN HOSE

ART: LO 92810 - LO 92814

“Warm, robust, and flexible – the G-LOFT® Loden Trousers are the ideal partner to the Loden Parka, ensuring dry warmth and unrestricted freedom of movement on every winter hunt.”

The **G-LOFT® Loden Trousers** are the perfect complement to the G-LOFT® Loden Parka 2.0 and complete your winter-ready loden system. They combine excellent thermal performance with high durability and maximum freedom of movement - ideal for long high-seat hunts in freezing temperatures. The high-quality loden material, together with integrated G-LOFT® insulation, ensures reliable protection against the cold, while the anatomically pre-shaped and reinforced knee area as well as reinforced inner legs provide added durability and protection.

A key highlight is the zip-in inner trousers, which provide noticeably increased warmth when needed. This allows the trousers to be adapted flexibly to changing weather conditions - worn on their own in milder frost or combined with the inner layer in extreme sub-zero temperatures.

Practical features such as the covered side zipper (from hem to knee), a dedicated knife pocket, and a robust boot hook make the trousers highly functional and hunting-ready. The elastic waistband with belt loops and internal suspenders loops ensures a secure and comfortable fit.

### FEATURES

- Elastic waistband with button closure and belt loops
- Internal loops for optional attachment of suspenders
- Covered side zipper from hem to knee for easy on and off
- Knife pocket on the right side
- Anatomically pre-shaped and reinforced knee area
- Reinforced inner leg and hem area
- Internally adjustable leg opening
- Durable boot hook for secure attachment to footwear
- Zip-in inner trousers for additional insulation

### MATERIAL

**Insulation:**  
G-LOFT® 40g/m2, Zip-in Trousers 80g/m2, 100% Polyester

**Outer fabric:**  
75% Virgin Wool, 25% Polyamide, Brushed Loden

## MIG 5.0 JACKET & HIG 5.0 TROUSERS MULTICAM ALPINE

ART: MG5240-MG5244 (JACKET)  
ART: MG5905-MG5909 (TROUSERS)

*“The ideal companion for dynamic stalking and driven hunts where both mobility and thermal protection are equally important.”*

The **MIG 5.0 Jacket** is the ultimate insulation jacket for dynamic hunting operations carried out with full gear. The innovative Side Access System with full-length side zippers allows quick access to essential equipment such as knife, binoculars, game call, ammunition, or other belt-mounted gear—without the need to fully open the jacket. Combined with moisture-resistant G-LOFT® insulation, thermal performance remains reliable even in rain and snow. **Application:** Specifically developed for active hunters during stalking, driven hunts, tracking, and demanding mountain hunting. Optimized for high-intensity use with changing activity levels down to -15°C.

The **HIG 5.0 Trousers** are the perfect complement to the MIG 5.0 Jacket for hunting activities with alternating intensity levels down to -20°C. As a high-insulation cold-weather pant, they provide reliable thermal retention during static high-seat phases while still offering good mobility for stalking and ascents. The practical construction with fully separable side zippers enables quick donning and doffing - even with boots and full hunting gear. **Application:** Designed for hunters and forestry professionals on demanding expeditions with varying activity levels. Optimized for hunting scenarios where active phases (stalking, driven hunts, mountain hunting) alternate with static observation or waiting periods - ideal for cold field conditions down to -20°C.

### FEATURES JACKET

- **Side Access Zips:** full-length side zippers from hem to underarm for direct access to holster, magazines, tools, and belt-mounted equipment
- **New dual-separating front zipper** for enhanced freedom of movement when sitting, driving, or carrying gear
- **Optimized mesh inner pockets** for warming and drying gloves or equipment
- **Internal Napoleon pocket** with zipper for secure storage of essential items
- **Windproof and highly water-repellent construction** for reliable weather protection

### FEATURES TROUSERS

- **High-performance G-LOFT® insulation** (125 g/m<sup>2</sup>) for reliable thermal retention down to -20°C
- **Full access pant design:** fully separable side zippers along the entire leg for quick donning and doffing with boots and gear
- **Durable reinforcements in the knee and seat area** for long-lasting performance under variable movement conditions
- **New suspender construction** for a secure fit during active use
- High rear waistband for protection of the kidney area
- Side 2-way zipper with wind protection
- Rear pocket with concealed zipper and zipper garage
- Windproof and highly water-repellent construction

### MATERIAL

**Insulation:** G-LOFT®, Body 125g/m<sup>2</sup>, Arms 80g/m<sup>2</sup>, 100% Polyester, Trousers: G-LOFT®, 125g/m<sup>2</sup>

**Outer fabric:**  
100% Polyamide, PTFE Membrane, water-repellent

**Inner lining:**  
100% Polyamide

## ECIG 5.0 JACKET & TROUSERS MULTICAM ALPINE

ART: MG5500-MG5504 (JACKET)  
ART: MG5510-MG5514 (TROUSERS)

*"The ECIG 5.0 Jacket delivers uncompromising cold protection down to below -30°C and maximum comfort during minimal movement."*

The **ECIG 5.0 Jacket** is the ultimate extreme-cold insulation jacket for hunters who must remain motionless for extended periods in temperatures below -30°C. Featuring massive G-LOFT® insulation and a windproof, highly water-repellent outer construction, it provides reliable protection against critical heat loss - ideal for long winter high-seat hunts, elevated stand hunting, and hours of observation in freezing conditions. Reinforced construction details and an improved inner collar design make it a dependable companion for demanding winter hunting scenarios. **Application:** Developed for hunters operating in extreme winter environments, long high-seat hunts, mountain hunting in snow, and multi-day expeditions in harsh, cold terrain. Optimized for low to moderate activity in deep sub-zero temperatures.

The **ECIG 5.0 Trousers** are the perfect complement to the ECIG 5.0 Jacket for static use in extreme sub-zero conditions down to below -30°C. With massive G-LOFT® insulation and a windproof, highly water-repellent outer construction, they provide reliable protection against critical heat loss. Specifically designed for long, motionless winter high-seat hunts, hours of observation, and demanding hunting in deep snow and extreme cold. **Application:** Developed for hunters and forestry professionals operating in extreme winter conditions. Primarily designed for static and low-activity hunting scenarios such as long high-seat hunts, elevated stand hunting, and prolonged observation in severe sub-zero temperatures.

### MATERIAL

**Insulation:** G-LOFT®, Body 220g/m², Arms 145g/m², 100% Polyester, Trousers: G-LOFT®, 145g/m²

**Outer fabric:**  
100% Polyamide, CARINTHIA® SOF 2L

**Inner lining:**  
100% Polyamide

### FEATURES JACKET

- **Extreme G-LOFT® insulation** (220 g/m² body, 145 g/m² sleeves) for maximum heat retention down to -30°C
- **Improved inner collar construction** to reduce heat loss in the neck and throat area
- **Reinforced elbow and shoulder areas** for increased durability when in contact with equipment and terrain
- **Windproof and highly water-repellent outer construction** for reliable protection against snow, ice, and strong winds
- Robust, specialized design for hunting use in extreme cold conditions with maximum insulation performance

### FEATURES TROUSERS

- **Massive G-LOFT® insulation** (145 g/m²) for maximum heat retention down to -30°C
- **Robust reinforcements in the knee and seat area** - designed for long periods of sitting, kneeling, and ground contact during static use
- **New suspender construction** for long-lasting comfort and a secure fit during extended operations
- **High rear waistband** for protection of the kidney area
- **Concealed side 2-way zipper** for easy on and off over boots and gear
- **Detachable holster system** for drop-seat functionality
- Adjustable leg openings with Velcro and snap-button closure
- Windproof and highly water-repellent construction

# DAUNEN LODENPARKA & LODENHOSE

ART PARKA: LO 92200 - LO 92240  
ART HOSE: LO 92340 - LO 92380

„When the cold really hits – this Loden down parka is the ultimate choice.“

\* nur auf Vorbestellung

The **Loden Down Parka** impresses with outstanding thermal performance thanks to its innovative H-chamber construction and the premium combination of down and G-LOFT®. Noble, water-repellent loden provides a silent wearing experience and reliable weather protection. The detachable storm hood with wind flap and chin guard, along with integrated thermo-fleece pulse warmers, offer additional comfort in extreme conditions. Numerous practical pockets complete the well-thought-out design.

The matching **Loden Down Trousers** complete the system perfectly. Equipped with a full-length 2-way zipper and wind protection flap, they can be quickly and easily pulled on over boots. The pre-shaped knee area and double-reinforced seat provide extra warmth and durability. Thanks to excellent freedom of movement, the trousers can be worn on their own or in combination with the parka, delivering perfect cold protection for long winter vigils.

## FEATURES PARKA

- Detachable hood with elastic drawcords (3-way adjustable)
- G-LOFT® reinforced hood panels with hidden snap buttons
- Thermo-fleece inner collar
- 2-way front zipper
- Wind protection flap with chin guard
- Zipper cover flap with snap buttons
- Double outer flap
- 2 large outer pockets lined with thermo-fleece
- 1 Napoleon chest pocket under the cover flap
- 2 large inner zippered pockets
- Pre-shaped sleeves with adjustable cuff width
- Thermo-fleece pulse warmers
- Elastic seams in the back panel (inside)
- Internal, one-handed adjustable elastic drawcord at the hem

## FEATURES TROUSERS

- Elastic waistband with button closure
- Full-length 2-way side zippers with wind protection flap
- High-cut rear waistband
- 2 large thigh zippered pockets
- Pre-shaped knee area
- Adjustable leg cuffs with snap button tabs
- Boot attachment option at the hem
- Reinforced inner leg cuff area (for easy boot entry)
- Removable, adjustable holster-style suspenders

## MATERIAL

**Insulation:**  
90/10 European Goose Down, 700 cuin

# EAGLE

ART: 92100

„The Eagle Sleeping Bag delivers reliable thermal protection at minimal weight and pack volume. Perfect for long vigils on the high seat, stalking hunts, and extended expeditions where every gram matters.“

## Compact Versatility and Performance for Hunting

The **Eagle Sleeping Bag** was specially developed for hunters who need a reliable, lightweight, and highly packable sleep system for long stand hunts and stalking. Its well-balanced thermal protection and compact pack size make it the ideal choice for multi-day hunting trips, driven hunts, and demanding mountain hunts - especially when every gram counts, but you don't want to compromise on comfort and warmth.

+13,3°C	+10,0°C	-1,5°C
T COMF	T LIM	T EXT

## FEATURES

- **Comfort Temperature Range:** The G-LOFT® high-tech insulation fiber provides a comfort temperature of +13.3°C, making it suitable for a wide variety of conditions.
- **Ultra-Compact Design:** Minimal pack size for easy storage and transport. Lightweight construction, ideal for survival kits and weight-sensitive missions.
- **Optimized Insulation:** The mummy shape maximizes heat retention. The differential cut ensures optimal loft and prevents cold spots. 1-layer construction with a loose outer shell creates the perfect balance between warmth and weight.
- **User-Friendly Features:** Side 2-way zipper with quick-release for easy entry, exit, and ventilation. A zipper warm flap and cover tab prevent heat loss and protect against drafts. An anti-pinch guard ensures smooth zipper operation.
- **Enhanced Thermal Performance:** Thermoflect technology reflects body heat for improved warmth. The trapezoidal foot section provides extra space and warmth for the feet.
- **Includes a compression stuff sack** for compact storage and easy transport.

„The Brenta Sleeping Bag offers rugged protection and excellent comfort for tough hunting conditions. Perfect for cold stand vigils, mountain hunts, and extended trips where dependable performance matters most.“

## The Reliable Companion for Demanding Hunts

The **Brenta Sleeping Bag** combines robustness and excellent thermal performance for hunters who refuse to compromise on comfort even in tough conditions. With its durable cotton blend fabric and integrated G-LOFT® thermal collar, it provides reliable insulation during cold nights on the high seat, mountain hunts, or multi-day stalking and driven hunts.

The Brenta Allround Sleeping Bag is specifically designed for hunters who need rugged, durable, yet comfortable sleeping gear for demanding missions in the field - without sacrificing warmth or operational readiness.

## SURVIVAL ONE

ART: 92070

„The Survival One Sleeping Bag delivers dependable protection against extreme cold and excellent comfort in freezing temperatures. Perfect for ice-cold vigils on the high seat, winter mountain hunts, and extended trips in harsh, cold conditions.“

### Advanced Cold Protection for Demanding Winter Hunts

The **Survival One** sleeping bag is a high-performance winter system specifically developed for hunters operating in extreme cold conditions. Its sophisticated design delivers outstanding thermal performance, exceptional comfort, and versatility - perfect for long high-seat hunts in snowy environments, demanding mountain hunts, and multi-day winter expeditions.

The Survival One sleeping bag was designed for hunters who require maximum warmth during freezing nights and in harsh field conditions. It provides unmatched cold protection without compromising flexibility or freedom of movement.

## WILDERNESS

ART: Zipper left SS 92011, Zipper right SS 92010

„The Wilderness Sleeping Bag offers outstanding warmth combined with superior mobility and low weight. Perfect for challenging stalking hunts, mountain expeditions, and versatile hunting use in variable conditions.“

### Flexibility and Functionality for Demanding Hunts

The **Wilderness** sleeping bag was developed for hunters who require uncompromising mobility and reliable thermal protection in demanding environments. Its innovative design featuring G-LOFT® insulation technology is perfectly tailored to the needs of active hunters—lightweight, flexible, and exceptionally warm.

The Wilderness sleeping bag is specifically designed for hunters who need versatile equipment capable of adapting to different hunting scenarios. It delivers the ideal balance of protection, functionality, and freedom of movement for stalking, multi-day hunting trips, and demanding expeditions in the field.

## SURVIVAL DOWN 1000

ART: 93590

„The Survival Down 1000 provides uncompromising thermal performance and durability in extreme cold. The perfect partner for challenging winter hunts, mountain tours, and extended expeditions in tough conditions.“

### Uncompromising Performance for the Harshest Hunting Conditions

This premium sleeping bag has been developed for the most demanding hunting operations, where absolute reliability is essential. Its sophisticated design and high-quality construction provide outstanding protection and excellent thermal performance even under extreme cold conditions. The **Survival Down 1000** is specifically designed for hunters who require maximum warmth and functionality during mountain hunts, winter high-seat hunts, or multi-day expeditions in rugged terrain. With its robust construction, it becomes an indispensable companion for anyone who needs to maintain full performance even in freezing temperatures and harsh weather conditions.

## CPS - CARINTHIA PONCHO SYSTEM

ART: MG8059

„The CARINTHIA Poncho System delivers maximum versatility and reliable weather protection for hunters. Ideal as a rain cover, windbreaker, ground mat, or emergency shelter – whenever the weather changes.“

### Ultimate Versatility for Hunting

The **CARINTHIA Poncho System** is an essential piece of equipment for hunters who face constantly changing and unpredictable weather conditions in the field.

Its exceptional adaptability and robust construction make it a reliable companion for all types of hunting - whether stalking, high-seat hunting, driven hunts, or multi-day mountain and forest expeditions.

### FEATURES

- **Advanced insulation technology:** G-LOFT® insulation fiber delivers an excellent warmth-to-weight ratio.
- **Rapid adaptability:** Converts via integrated zippers from a poncho into a warm blanket or emergency sleeping system. Attach-on hood with integrated mosquito net for enhanced protection and comfort.
- **Smart storage solution:** Chest pocket doubles as an integrated pack sack for compact transport.
- **Versatile design:** Functions as cold protection, emergency sleeping system, or outdoor blanket - adaptable to various outdoor scenarios and environmental conditions.
- **Insect protection:** Integrated mosquito net provides essential protection against insects in different outdoor situations.
