

A man with a beard and a dark green beanie is shown in profile, looking towards the right. He is wearing a dark green quilted jacket with brown leather-like accents on the shoulders and sleeves. The Carinthia logo is visible on the left shoulder. He is holding a black rifle with a scope. The background is a blurred wooden structure.

## CARINTHIA

At CARINTHIA, we have been pursuing a common goal every day for decades: the permanent, innovative and performance-oriented further development of insulated clothing and equipment - from professionals for professionals.

As a global market leader, service orientation, entrepreneurial spirit and innovative strength are the focus of our activities.

The highest quality standards apply, because our products are 100% manufactured in Europe. Professionalism and flexibility in the field of product development enable us to develop solutions that provide more comfort and safety. Our products are tested by professionals and further developed together.

An important key to the company's success is the unique premium synthetic fiber insulation G-LOFT®. Warm, light and breathable - even in extremely wet and cold weather. Unrivalled USP is the extraordinary warmth-to-weight ratio of this high-tech fiber. The uniqueness of G-LOFT® acts as the basis of our product portfolio.

**PREMIUM  
INSULATION  
TECHNOLOGY**

**Made in Europe**

Warm, light and breathable - even in extremely wet and cold weather: The revolutionary G-LOFT® insulation meets the highest standards. Due to the "MEMORY EFFECT" the fibres automatically return to their original and unique form, providing warmth, even after repeated washing and hard use. G-LOFT® guarantees optimal thermal insulation and heat regulation, both indoors and outdoors.

## TECHNOLOGY

### BI-COMPONENT FIBER

**MEMORY EFFECT:** The exceptionally fluffy and warming spiral form of the G-LOFT® insulation is achieved through the molecular structure of the bi-component-fiber.

### SPECIAL FIBER BLEND

Microfibres and „Low-Melt-Fibres“ guarantee a permanent, fluffy G-LOFT® insulation with the minimum possible packsize.

### NATURAL CLUSTERING

Similar to high-end down, G-LOFT® products form „Clusters“. Air is trapped in countless small pockets and ensures an optimal insulation.

## BENEFITS

### WARM & LIGHT

Maximum heat rating at a minimum weight: G-LOFT® is measurably perceptibly lighter and has measurably higher heat rating/thermal efficiency for the same weight.

### TOP WET CONDITION PERFORMANCE

In contrast to down G-LOFT® fibers absorb no moisture. This guarantees a high thermal rating/thermal efficiency even in wet conditions.

### HIGHLY COMPRESSIBLE

The miraculously small pack/weight ratio: When packed, air escapes from the G-LOFT® insulation, which later quickly unfolds again due to the MEMORY EFFECT.

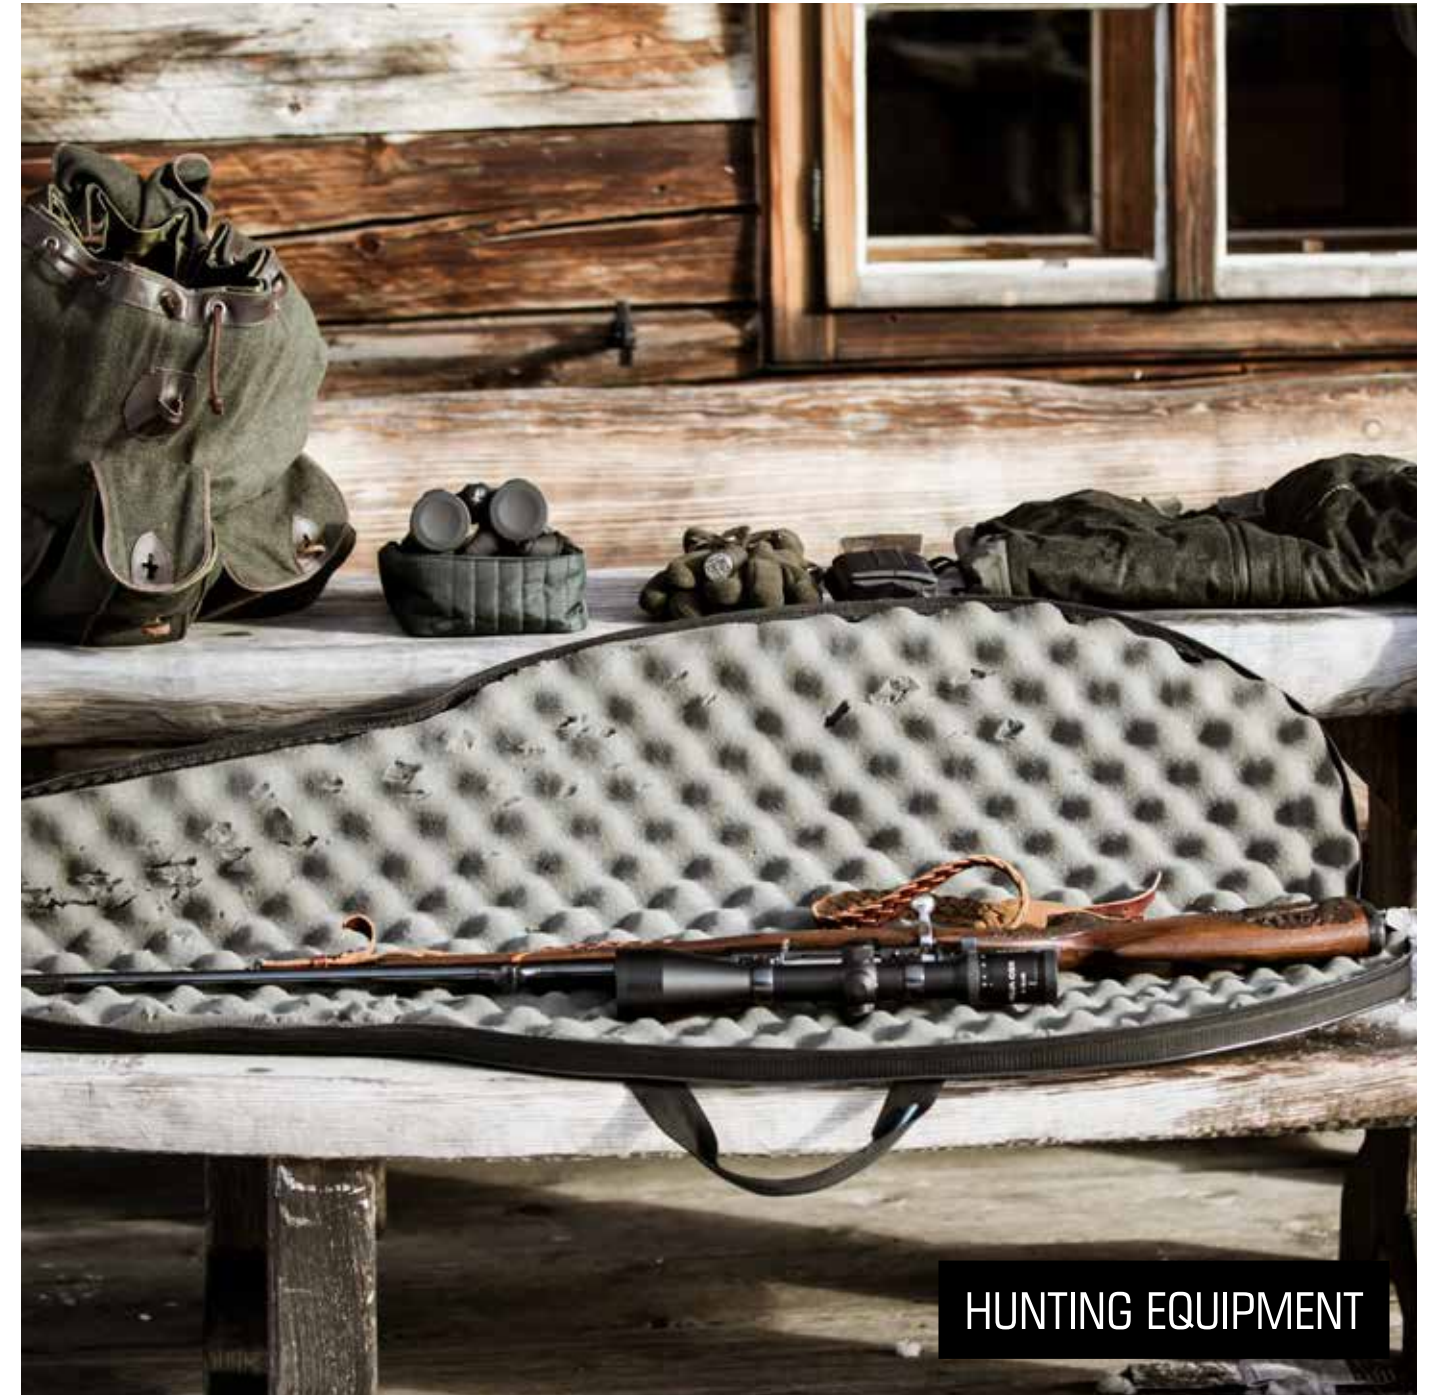

### HIGHLY BREATHABLE

The breathable G-LOFT® products guarantee a perfect temperature regulation outdoors and an optimal sleeping climate.

[WWW.G-LOFT.EU](http://WWW.G-LOFT.EU)

Hunters take care of the wildlife in a variety of ways:  
They provide for species maintenance, sufficient rest and for the improvement  
of living space and living conditions of the wildlife population.

HUNTING EQUIPMENT

# LODEN HÜTTENSCHLAFSACK LODEN CABIN SLEEPING BAG

- Outer material made of high quality & water repellent loden
- Inner material made of highly comfortable cotton blend fabric
- Drawcord at head end
- 2 way zipper on the side
- 2in1 system (blanket & sleeping bag) - due to clever zipper arrangement
- Inside pocket

Item no: L092150-L092151  
 Insulation: G-LOFT® 145g/m², 100% polyester  
 Outer fabric: 75% wool, 20% polyamide, 5% polyester | Inner lining: 65% cotton, 35% polyester  
 Dimensions (cm): 240x90  
 Weight (g): 2.550

# LODEN ANSITZDECKE LEICHT LODEN HUNTING STAND BLANKET LIGHT

- Upper material made of soft & water repellent loden
- Inner material made of fine warp knitted fabric
- Carrying strap included

Item-no.: L092140  
 Insulation: G-LOFT® 175g/m2, 100% polyester  
 Outer fabric: 30% Wool, 30% polyacrylic, 32% polyester, 3% polyamide, 5% other fibers | Inner lining: 100% polyamide  
 Dimensions (cm): 150x180  
 Weight (g): 1.500

# LODEN ANSITZDECKE LODEN HUNTING STAND BLANKET

- Upper made of high quality & water repellent loden
- Fluffy teddy plush lining
- Variable button closure for optimal width adjustment
- Adjustable collar
- Attached muff with 2 large access openings
- Carrying strap included

# LODEN ANSITZSACK STANDARD LODEN HUNTING STAND BLANKET STANDARD

- Inner lining made of fine warp knitted fabric
- Robust nylon shoulder straps with buckles
- Side 2-way zipper
- Attached muff with 2 large pockets

Item-no.: L092130

Insulation: G-LOFT® 300g/m2, 100% polyester

Outer fabric: 75% wool, 20% polyamide, 5% polyester | Inner lining: 100% polyester

Dimensions (cm): 150x180

Weight (g): 2.500

 Color: olive

\*Only on pre-order

# LODEN

## Natural product with tradition

Loden is a natural product with an old tradition and excellent wearing comfort. Originally created by the farmers of the alpine region as a protective cloth for the extreme weather conditions, this, in the world unique, garment was refined more and more and adapted to the spirit of the times.

Even today, the same production methods are used as a hundred years ago, but on the most modern machines and with the latest technology. At CARINTHIA we use exclusively high-quality South Tyrolean premium loden (cloth loden, striped loden).

Due to these special characteristics, which have already proven themselves for hundreds of years, we use this material. For hundreds of years, we use this high quality raw material, to refine our products in the well-known CARINTHIA manner.
